Yes sir. The numbers on this map were at one foot but I increased my calculations to two feet as we discussed. Let me know if you need anything else.

Thanks,

That's good. The map I have designates Area 6. You are using a good one. I thought maybe you included and that's why so high. You did take out area 5 right?

Eric,

This is the map I used to get the numbers. I could not locate a newer one. But this does not include Area 6. Is there an Area you would like for me to remove?

Thanks,
